The Passing of Richard (Dick) Hagan

Hi Bill

My brother found your site the other day and thought it was great! My father worked for BT for 44 years, from 16 till 60 and he would have continue were he allowed to. He did a number of roles, but mainly worked in ICT hardware I believe and was based in central London offices and then later Croydon and Bromley. He retired 14 years ago (2004) and passed last Friday 6th July at hospital in Orpington following a long battle with Alzheimer's/Dementia as he was diagnosed with early onset Alzheimer's shortly after retirement.

He was so proud to work for BT all his life and he made work his life, getting in very early everyday and avoiding many redundancy rounds through getting his head down and being a reliable hard working fella. Many years ago he was involved in some projects with Swisscom, which involved trips to Switzerland where he met his wife (my mother). He also travelled to the Netherlands, the US and around the UK to work on various jobs. He had 2 children with his wife Elsbeth being Daniel and myself Stefan. We all grew up in Petts Wood in the borough of Bromley.

I was hoping you could mention him on the website in all the various places, or in a newsletter email as a mention as I'd love to hear from anyone with any stories about him. If anyone wants to attend the funeral, they are welcome to although it would be handy if they got in touch with us first. But his funeral will be on 25th July at 3:15pm at Kemnal Park Crematorium in Orpington.

Kindest regards and keep up the good work.

Stefan Hagan
